Residential - Current Rates

Consumption Charge

The amount of water used each month will be billed at an established rate per 100 cubic feet (100 cubic feet = 748 gallons of water).

Water/Sewer Service Charges

Water Service Charges are based on the size of a customer's water meter. Sewer Service Charges are based on a flat rate. Additional charges based on water consumption may also be included depending upon type of use. Both of these charges are applied to open accounts whether water is used or not.

Backflow Charges

A monthly charge, based on the size of each device, for testing and any necessary minor repairs.
