Kerri-Ann,

The change and update to apply to SDG&E's "WPSDGENRLG0083_Rev2_SF_LED_Ambient_Com_Fixture-Kit_FINAL_20190614" EAD data table, the earlier email mentioned high/low bay in the subject line. My apologies.

Kerri-Ann et al,

I'm writing to notify CPUC staff and ex-ante team that SDG&E engineering team discovered minor processing errors in the Implementation ex-ante tables, below is a snap shot image of our implementation that requires an update to change the "Delivery Type". I suggest re-submitting EAD records that trigger a change and or updated to correct processing errors. Please let me know if you have questions. Thank you
