"Kerri-Ann, I'm writing to notify CPUC staff and ex-ante team that SDG&E engineering team discovered minor processing errors in the Implementation ex-ante tables, (refer to email by Ed Reynoso sent on 7/8/2019) below is a snap shot image of our implementation that requires an update to change the "Delivery Type". I suggest re-submitting EAD records that trigger a change and or updated to correct processing errors. Please let me know if you have questions. Thank you "
